

DIGITAL SOCIAL IMPACT

About Us

Description

About Us

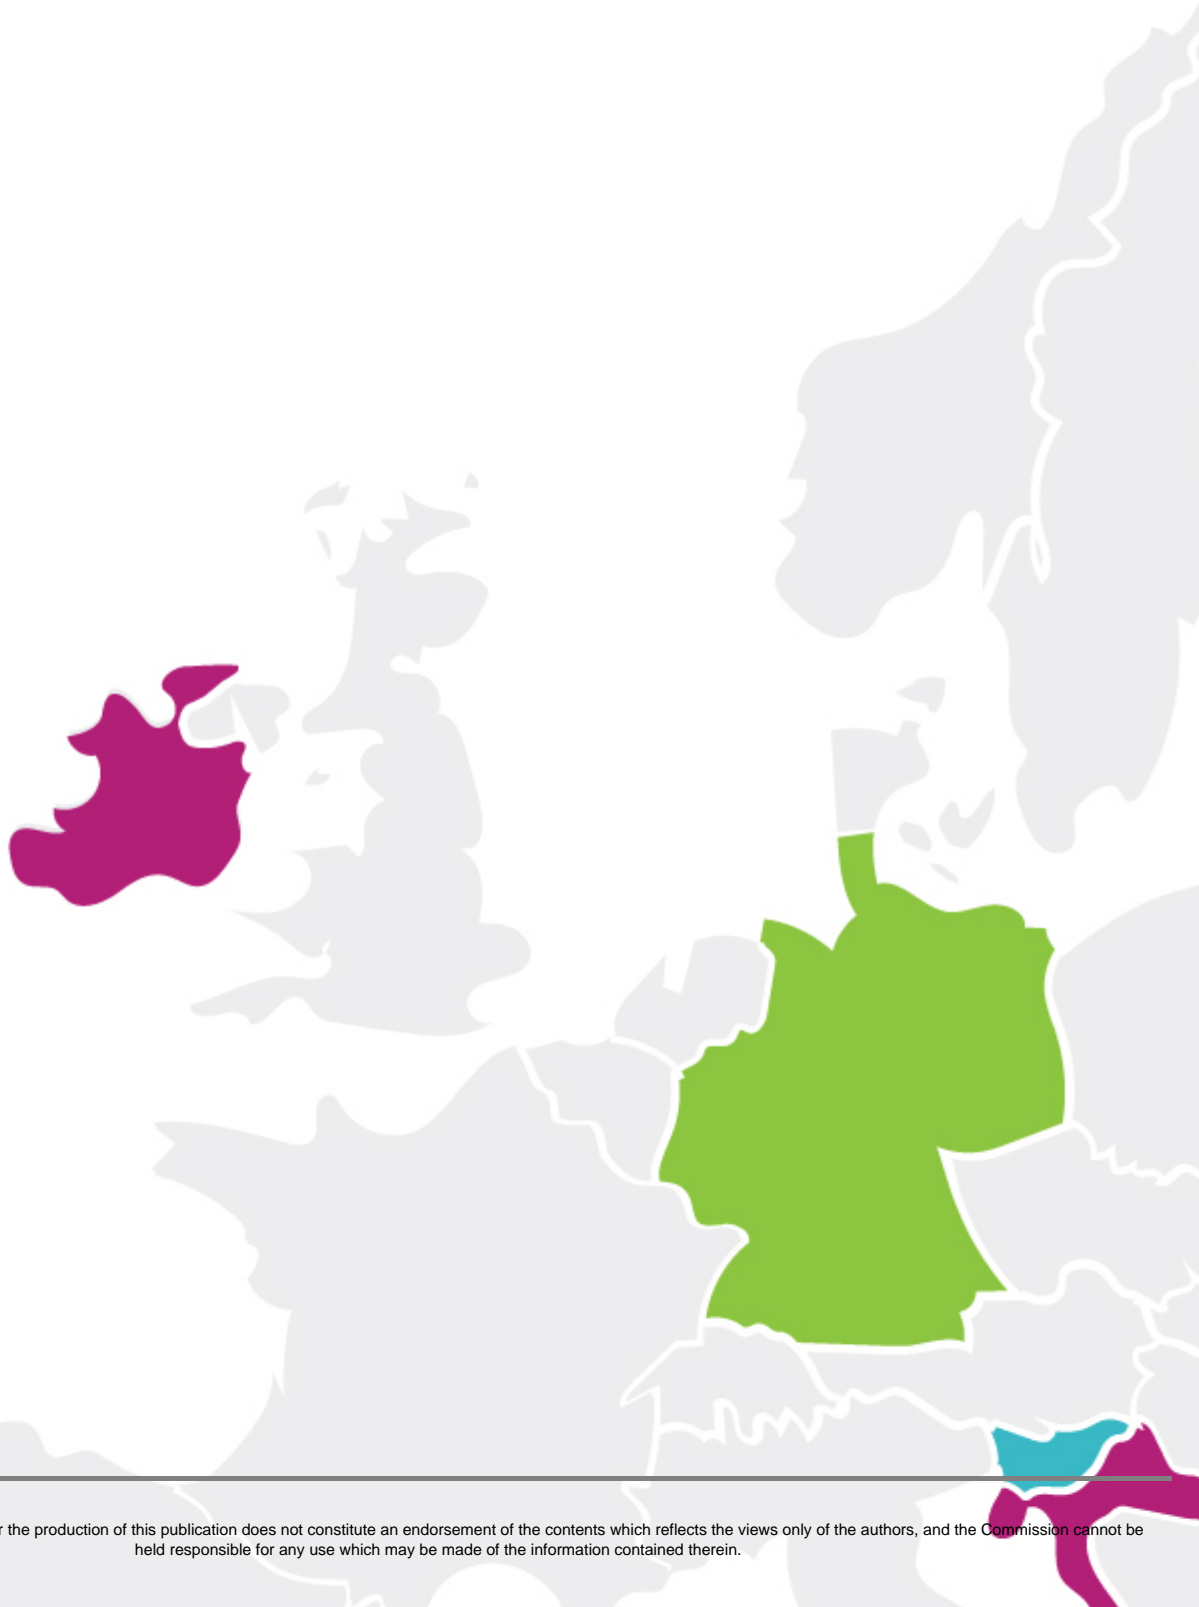

We are an ERASMUS+ Strategic Partnership project team led by FH Münster University of Applied Sciences (MUAS), Germany.

MUAS originated the project idea and convened other four partners from two HEI's and 2 partners with expertise in higher education capacity building and innovation from three other European countries – Ireland, Croatia and Slovenia.

Our expertise and strong reputation make a solid foundation for successful achievement of the intended project results and long-term impact.

University

Münster University of Applied Sciences

Project Coordinator

Münster University of Applied Sciences was founded in 1971 out of eight public and private schools and has developed to a modern, achievement-oriented university. The university has approximately 15.000 students, 400 staff and is one of the biggest institutions of its kind in Germany. MUAS is part of the Germany-wide initiative “Innovative University” (Innovative Hochschule) that focuses on the “third mission” alongside teaching and research: transfer. Every day at MUAS, new ideas and new knowledge are generated in the higher education landscape. MUAS believes that only through direct and reciprocal exchange with actors from business, culture and society can innovations emerge that ensure prosperity and quality of life

J.J. Strossmayer University in Osijek

Project Partner

J.J. Strossmayer University in Osijek is regional centre of knowledge, research and excellence consisting of 12 faculties, 4 university departments and academy for art and culture.
