Tool Description

tscheck is a simple tool for teams from the collaborators at denkwerk. Give it a try and begin your sessions more aligned and end them more enlightened. DenkWerk brings together Dutch people who want to use their rich knowledge, experience and creativity to give direction to broad social issues that are close to their hearts. The idea is simple but effective.

Begin and end team sessions with checking-in and checking-out questions. By answering a question together, you start more aligned and close more enlightened.
